## ALPINARIUM GALTÜR

The Alpinarium Galtür is a special exhibition space and a key component of the 345 m long and 19 m high protective wall. The combination of protective wall and exhibition spaces makes the Alpinarium Galtür and its architecture truly unique in Europe.

The permanent 'GANZ OBEN' (high up) exhibition focuses on 'stories about Galtür and the world' and tells of the relationship between the town of Galtür and the world. It focuses on the history of the region through the centuries as well as widely travelled Galtür residents, influential guests, discoveries and desirable places. There is no home without home sickness, no memory without idealisation and no knowledge without a change in position. This is reflected in the shifting relationship between people and their greatest adversary, nature.

## Getting here

Whether travelling by car or by train – getting to Paznaun is all a part of your holiday, since Tirol's breath-taking landscape relaxes you almost automatically.

To avoid any unnecessary stress, drivers should pay attention to a few things before coming to Paznaun – Motorway tolls are levied in Austria. Anyone who is stopped without a valid vignette will have to pay high penalties. Vignettes are available from kiosks and at filling stations (also in neighbouring countries). They are valid for 10 days, 2 months or for a full year.

An extra toll fee is due for the Arlberg tunnel. Here, a video toll card purchased in advance will spare you any hassle and save time. Reflective vests are also compulsory in Austria – and also for every passenger who leaves the car in the event of a breakdown or emergency.
